Some discussion has been created by the vote of the board of aldermen Mon-day night relative to the repairing of Chapman street and the rebuilding of the retaining wall on the south side of the etrect, between Dunham and Ash streets. There seems to be a differ-ence of opinion as to whether the street was ever formally accepted by the city, and whether the city should go ahead and repair the road, if it has not been accepted. In the opinion of one of the city officials the roads leading to the city should receive the first attention, and side streets should be looked after later.

Here is a simple prescription that every one should

5 grains Optona (1 tablet) 2 ounces water

Use three or four times a day to bathe the eyes. This prescription and the simple Optona system keeps the eyes clean, sharpens the vision and quickly overcomes the inflammation, and irritation; weak, watery, over-worked, tired eyes and other similar troubles are greatly benefited and oftentimes cured by its use. Many reports show that wearers of glasses have discarded them after a few weeks' use. It is good for the eyes and contains no ingredient which would in-jure the most sensitive eyes of an infant or the aged. Lee & Osgood or any druggist can fill this prescription promptly. Try it and know for once what real eye comfort is.
